

From a writing brief to structured book content

A client application combining fine-tuned models with a controlled generation workflow.

My contribution

Translated writing and formatting requirements into an application workflow, model configuration, deterministic orchestration, and an accessible user interface.

What the sample demonstrates

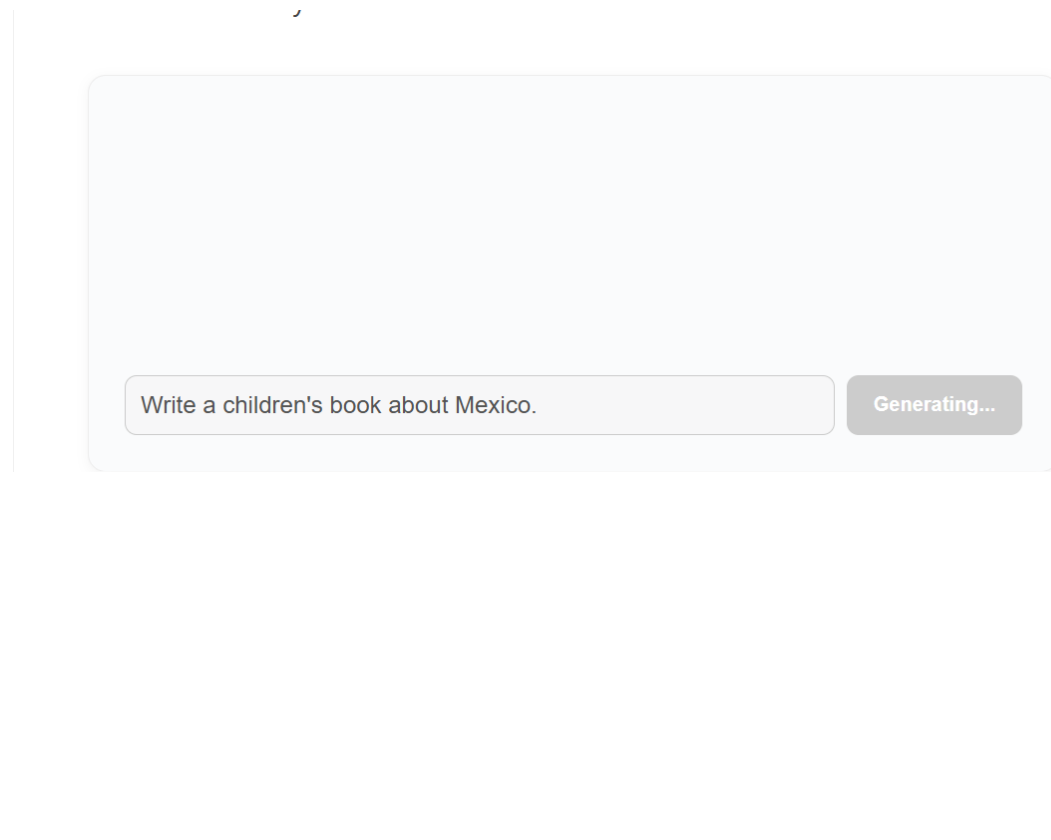

The user can request a topic, review page-labelled content, and download the generated output. The following page shows the application in use.

Client application | Selected workflow and output samples.

A real input and output example

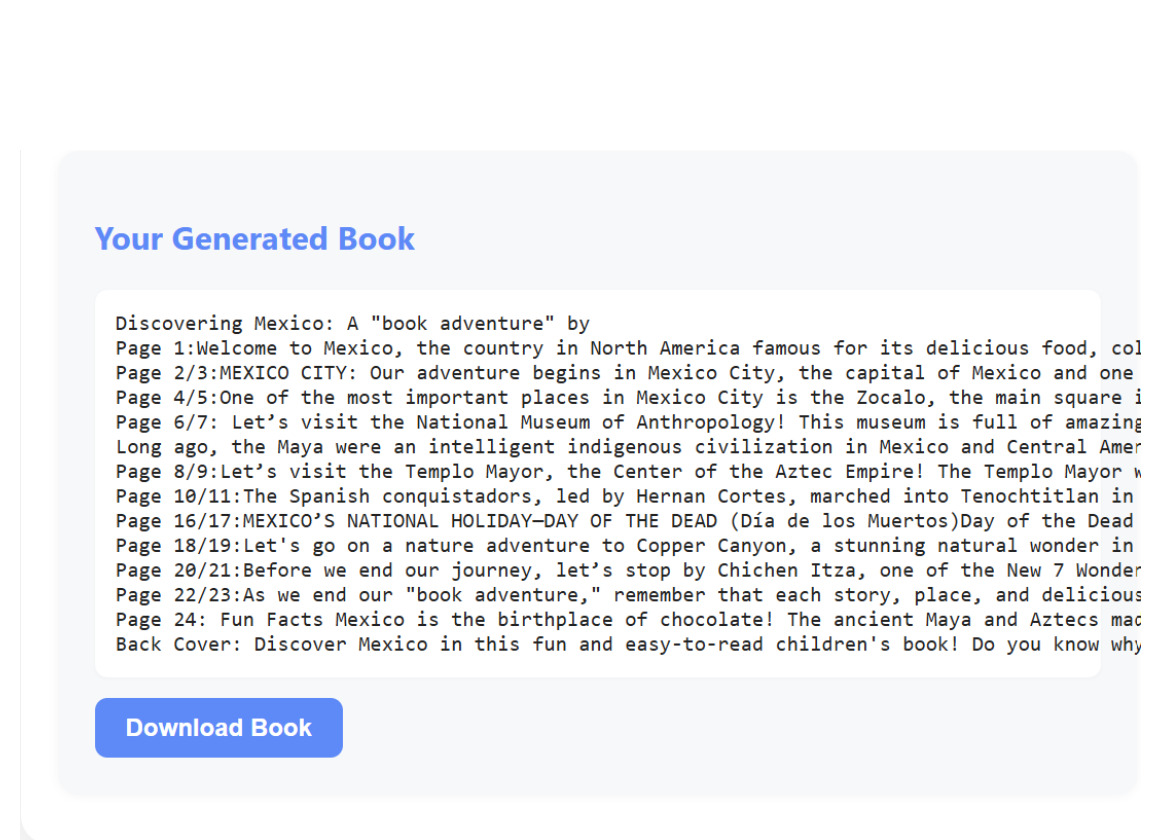

The example request is followed by page-labelled, downloadable content.

Input: a topic request

The screenshot shows a light gray rectangular interface. At the bottom, there is a text input field with the placeholder text "Write a children's book about Mexico." and a gray button labeled "Generating..." to its right.

Output: page structure and download

The screenshot shows a light blue rectangular interface. At the top, it says "Your Generated Book" in blue. Below this, there is a white box containing a list of page contents for a book titled "Discovering Mexico: A 'book adventure' by". The pages listed are: Page 1: Welcome to Mexico, the country in North America famous for its delicious food, col; Page 2/3: MEXICO CITY: Our adventure begins in Mexico City, the capital of Mexico and one; Page 4/5: One of the most important places in Mexico City is the Zocalo, the main square i; Page 6/7: Let's visit the National Museum of Anthropology! This museum is full of amazing; Long ago, the Maya were an intelligent indigenous civilization in Mexico and Central Amer; Page 8/9: Let's visit the Templo Mayor, the Center of the Aztec Empire! The Templo Mayor w; Page 10/11: The Spanish conquistadors, led by Hernan Cortes, marched into Tenochtitlan in; Page 16/17: MEXICO'S NATIONAL HOLIDAY-DAY OF THE DEAD (Día de los Muertos) Day of the Dead; Page 18/19: Let's go on a nature adventure to Copper Canyon, a stunning natural wonder in; Page 20/21: Before we end our journey, let's stop by Chichen Itza, one of the New 7 Wonder; Page 22/23: As we end our "book adventure," remember that each story, place, and delicious; Page 24: Fun Facts Mexico is the birthplace of chocolate! The ancient Maya and Aztecs mac; Back Cover: Discover Mexico in this fun and easy-to-read children's book! Do you know why. At the bottom of the white box, there is a blue button labeled "Download Book".
